Medical Executive Committee Approvals

Items approved at the last Medical Executive Committee meeting can be viewed by using this website link and selecting the particular month: http://www.torrancememorial.org/For_Physicians/Medical_Staff/MEC_Approval.aspx .

If you have any questions, please contact the Medical Staff Services Department at (310) 517-4616.

Happy Doctor's Day

To all of the Doctors here at TMMC: THANK YOU FOR ALL YOU DO! You have navigated your way through one of the most challenging years the world has seen, and we all appreciate you so very much! Your dedication and expertise have led us all to a brighter point in time. Please know how much we nurses love and respect you, and it is alongside you that we too forge ahead, following your lead! Thank you and HAPPY DOCTORS' DAY!!!!

The Doctors at TMMC Rock!!!!
We are so proud of all your hard work to care for our patients.
We appreciate your endless time and compassion in caring for our Community during this pandemic. Caring for COVID patients side-by-side with our Physicians has been an incredible experience and we are so grateful!!!!!!

This time of the year my chefs and I would normally be preparing a VIP special luncheon meal for Doctor's Day. We always looked forward to preparing for the event each year to show our gratitude. I hope to be able to serve you once again next year. Thank you again for all that you do.

A HUGE Shout-out to our TMHA Hospitalist for their increased participation in the Culture of Safety Survey this year and for always keeping our patients' safety at the forefront of the care you provide.

Thank you for all your hard work and dedication. You are appreciated more than you know!!!

Every minute of every day, A doctor somewhere brings a smile, shares a problem, eases a pain, and makes a special difference.
Thank you, for being that kind person, for all your hard work and dedication, for all the ways you give yourself to your patients.

We are so proud to work with an amazing group of Physicians at TMMC. Thank-you for your tireless efforts to ensure our patients receive the very best care. Thank-you for being approachable, collaborative, and fun to work with.

Thank-you to the Doctors who cover night shift and for being available to the nursing staff. We really appreciate all you do!!!

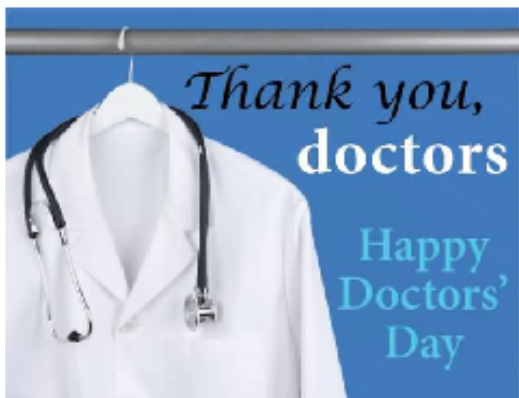

Happy Doctor's Day to our awesome TMMC Psychiatrists: Dr. Irina Addes, Dr. Vanessa Hernandez and Dr. Joshua Lichtman. Your knowledge and expertise are invaluable! We appreciate you and your commitment to TMMC and our patients!!

On behalf of Patient Experience and Volunteer Services, I wish you all a very Happy Doctor's Day!
Thank you for the compassionate care you provide our patients each and every day. Thank you also for your ongoing support of our volunteers and the annual donation to provide their blue uniform jackets. We appreciate

FOR HELPING,
TREATING, HEALING,
AIDING, AND CARING
FOR THOSE THAT NEED
YOU. YOU ARE
APPRECIATED.

Thank you for all of your hard work, especially during this pandemic. Thank you for your patience and guidance for the last several months.

Happy Doctor's Day

THANK YOU DOCTORS for your hard work and dedication. We appreciate all you do and love working with you. No words are enough to express the service you do.

2020 has been a tough year for all of us. I would like to take this time to thank all our ER doctors and PAs for their tireless dedication and all the sacrifices they make every day, especially this time of pandemic. Though it may take some time for everything to get back to normal again, I'm so grateful to work side by side with such wonderful group of doctors! Their hard work, courage, and compassion truly deserves our deepest gratitude and admiration. Thank you for all that you do! You make a difference every day!

We are grateful to have such an awesome team in the ED. Our patients, which sometimes include ourselves, appreciate all that you do to help make us feel comfortable and safe. Thank you for all the care you provided during this past year and especially during our COVID surges. You are truly appreciated. you!

Our wonderful Burn, Wound, APC physicians Thank you for all that you do in caring for our patients & for keeping us laughing 😊

To all Torrance Memorial Doctors- Thank you for the amazing work you do in caring for our patients. Happy Doctor's Week!!!

Dear Amazing Torrance Memorial Physicians, we are grateful to you every day for your hard work, dedication smiles. You help to create grateful patients that support Torrance Memorial via the Foundation. Just as faculty are to a university our physicians are to Torrance Memorial... our superstars! Thank you for caring for our Patrons as well. We could never be successful in our fundraising if we did not have you. Go Team Torrance Memorial! #TMMStrong

Thank you for all that you do for your patients. Not only are you kind to patients, but you are also kind and respectful to the staff. It is an honor working with each and every one of you. Thank you for sharing your expertise and going out of your way to educate staff and making each and every one of us feel special, in a professional manner.

Thank you: for choosing to be a doctor to serve mankind, for the dedication in time of need throughout the pandemic, for being a co-worker, for being my doctor and for being the best you.

WOW- WHAT A YEAR!
You were the SUPER HEROES of this past year. Without your expertise, guidance, and support - Our patients could not have received the best care we could give at that moment. Because we all know that treatment was changing everyday as we learned more about this awful virus. We were in awe to see all of you keep up with all the information and sharing it with all of us. SO grateful to have you on our team invaluable! We appreciate you and your commitment to TMMC and our patients!!

To all of our wonderful hospitalists. You make our lives/work run so some much more smoothly. You are always accessible, and eager to help. We could not do it without you.

Thank you: ICU Intensivists- YOU ARE AMAZING!
Thank you for being the captain of the ship of our ICU patients. I hope you know how much the staff appreciates having you there. Staff has support and guidance and our patients don't experience delay in care as much as they used to. We in Patient Safety appreciate how much you have done to support our RCA's and our Process Improvement Projects.

Medical Informatics

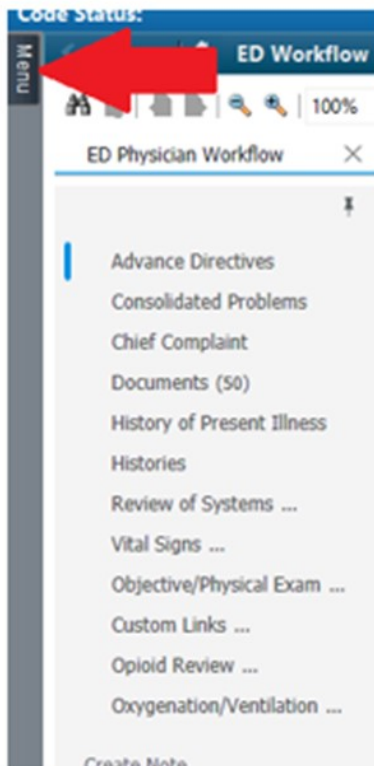

Torrance Community View

Hello all,

As your Executive Director of Medical Informatics, I am your physician liaison to all things Cerner Millennium. With an experienced team of informaticists and service specialists supporting me, we are available to assist you with questions or ideas regarding use of the electronic medical record across both the acute and ambulatory locations of the Torrance Memorial Health System.

I wanted to remind the new users and update experienced users about our Health Information Exchange, called Torrance Community View. Torrance Community View provides outside patient records provided by participating organization. As of now, we have over 300 participating organizations contributing information to our system in real time.

You will find Torrance Community View in the dark gray area on the far left of the patient chart. You may need to hover over the “Menu” button at the top to expand the dark gray area. To keep it expanded, click the “thumbtack” icon at the top. Each position will find the title of Torrance Community View in a slightly different location, so just look for yours.

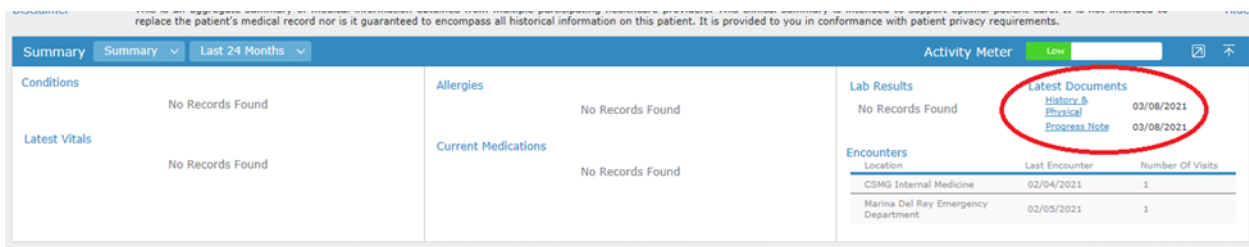

At the very top of Torrance Community View you will see a header that shows the source of information available on a patient. The four sources are Cedars-Sinai, Commonwell, Memorial Care and Aggregated CCD. Cedars-Sinai and Memorial Care contain direct information from these institutions. Commonwell combines several dozen participating providers to collect data. Aggregated CCD is another source of data from combined providers. These currently include UCLA, several Kaiser facilities, and multiple smaller institutions. A green OK indicates information is present. A red N/F or a blue N/D indicates Not Found or No Data.

Medical Informatics

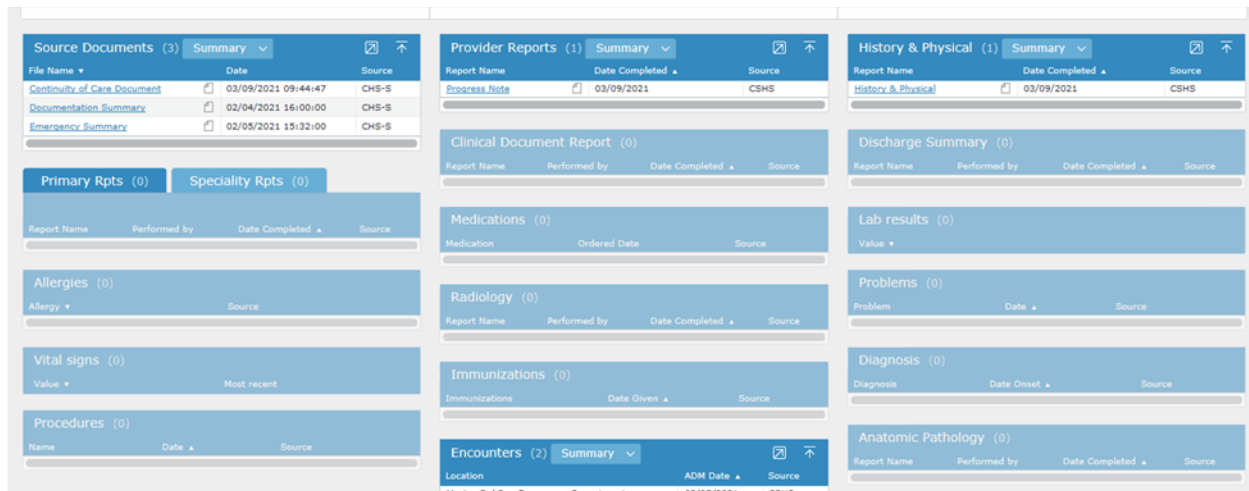

The second line of blue boxes are drop down filters to narrow your search. For example, you can select only Cedars-Sinai data under the Sources filter.

Next in Torrance Community View, you will see a Summary Page at the top of the screen. Here you will find quick access to recent Vital Signs, Allergies, Problem Lists, Lab Results, and Documents. Clicking on any blue title will open the document or result for you. The Summary Page defaults to the past 24 months but has filters available to change the view.

Below this you will find boxes of different information. These boxes, or “Widgets” can be dragged around with the mouse and reordered to your liking. Darker blue titles indicate information present, light blue titles indicate no information. A white arrow in the upper right hand corner allows you to expand the widget to view the information in a larger screen.

If you would like additional information on this tool or any other part of Cerner Millennium, please contact me at ginal.sulmeyer@tmmc.com. I am also on Mobile Heartbeat 24/7 for questions. As always, here to help!

Torrance Memorial Burn, Wound Care & Amputation Prevention Center

Patient Champion: Oscar Gallardo

"I found the confidence I needed and received life-saving care."

Center Hours:

Monday - Friday
8:30 am - 5:00 pm

For more information, call:
**Torrance Memorial's
Burn, Wound Care &
Amputation Prevention
Center**

3325 Medical Center Dr.
West Tower, 5th Floor
Torrance, CA 90505

What started as a superficial scratch 51-year-old Oscar Gallardo made on his left toe last June while swimming in a pool turned out to be so much more. After several days of self-care, he noticed discoloration at the scratch site had spread throughout his forefoot. Having underlying diabetes since childhood, he became concerned and made an appointment to see his physician. He was told not to worry, was treated with creams and told not to wear shoes to give his foot a chance to heal. After nearly five months of treatment, an infection developed. He feared he would lose his entire foot. At this point, he sought help at Torrance Memorial's Burn, Wound Healing and Amputation Prevention Center - where he found life and limb-saving care. "From the moment I met Dr. Karen Shum, I told her I would do anything to save my foot," said Gallardo.

Dr. Shum quickly diagnosed a vascular blockage previously missed, which prevented his healing. A vascular procedure was done to clear the vessel blockage. Dr. Shum told him a transmetatarsal amputation to remove the

infected toes, was necessary. She would try to preserve as much of his foot as possible to enable ambulation with a functional limb. From proper diagnosis and problem-solving to surgery, Gallardo found the care at Torrance Memorial to be very good and personal. "I found the confidence I needed and received life-saving care," said Gallardo. The team at Torrance Memorial gave him the reassurance that he was finally getting the right care. Dr. Shum even arranged for state-of-the-art hyperbaric oxygen therapy to prevent further infection and promote healing. Gallardo is now making a full recovery.

He was also inspired to make personal lifestyle changes by exercising routinely and improving his diet. Today, he has lost nearly 65 lbs. and feels like he has his life back - not to mention the preservation of his left foot. Gallardo has been able to return to work and credits the team at Torrance Memorial Wound Healing and Amputation Prevention Center for saving his foot and enabling him to walk again.
